**Longevity Health Achieves Top Ratings in CMS Star Quality Measures:
A Testament to Excellence in Member Care**

PALM BEACH GARDENS, FL. – October 15, 2025 – Longevity Health is proud to celebrate a significant achievement in its mission to deliver exceptional care to institutionalized members residing within skilled nursing facilities.

The Centers for Medicare & Medicaid Services (CMS) awarded three of Longevity’s health plans an overall rating – Longevity Health Plan of North Carolina and Longevity Health Plan of Illinois each received the highest possible rating of 5 Stars and Longevity Health Plan of New Jersey received 4 Stars. Additionally, Longevity Health Plan of Colorado, Longevity Health Plan of Florida, and Longevity Health Plan of Michigan, each received 5 Stars for their performance on Part D, while Longevity Health Plan of New York received 4.5 Stars. In addition to all rated plans achieving four (or more) stars, this recognition places Longevity Health among an elite group of plans nationwide. Out of 720 total plans rated by CMS, only 2.5% received an overall 5-star rating, highlighting the strength of Longevity’s clinical and operational excellence.

“These ratings are a direct reflection of our clinical teams’ relentless commitment to quality care and our collaboration with our skilled nursing facility partners,” said Sheryl Markowitz, Chief Clinical Officer of Longevity Health. *“We are thrilled to see our efforts translate into meaningful outcomes for our members.”*

“Achieving two 5-star ratings and a 4-star rating is a tremendous accomplishment,” added Ben Lerer, Chief Executive Officer of Longevity Health. *“This speaks volumes about our culture of clinical excellence and our team’s passion and aptitude for improving lives of vulnerable seniors.”*

With a presence in over 450 skilled nursing facilities across 15 states and serving more than 13,000 members, Longevity Health is rapidly expanding its national footprint. These top CMS ratings underscore the strength of Longevity's robust clinical models and its ability to deliver high-quality, value-based care at scale. As Longevity continues to grow, its commitment to clinical excellence, innovation, and deep partnerships with skilled nursing facilities remains unwavering, ensuring that more members across the country benefit from the highest standards of care.

About Longevity Health

Longevity is a clinical services company and national Institutional Special Needs (I-SNP) plan dedicated to serving individuals in senior living settings. Via its own plans and as an Independent Provider Association (IPA) in partnership with leading national health insurers, Longevity provides comprehensive and patient-centered care for senior living residents' full range of medical, social and emotional needs.
