

## Company Overview

Longevity Health is a leading clinical services company and national Institutional Special Needs Plan (I-SNP) focused on improving outcomes for long-term care residents. As one of the largest and fastest-growing I-SNP operators, **Longevity partners with more than 500 skilled nursing communities across 16 states to deliver coordinated, on-site, patient-centered care.** Through its health plan and Independent Provider Association (IPA) partnerships with leading health insurers, the company advances a transparent, value-based model that reduces avoidable hospitalizations, improves care quality, and strengthens financial performance. Its ACO LEAD program extends this approach to Traditional Medicare beneficiaries, advancing Longevity's mission to deliver high-quality, value-based care across the continuum.

## Third Party Validation of I-SNP Model

I-SNPs are increasingly recognized as a high impact model for delivering coordinated, value based care in long-term care settings that improve clinical outcomes and reduce unnecessary utilization and medical cost. Here is a selection of research and industry perspectives validating their effectiveness.

- [New Analysis Shows Favorable Outcomes for Residents Enrolled in I-SNPs](#)

*American Health Care Association (AHCA)*  
Demonstrates improved quality outcomes and care coordination for nursing home residents enrolled in I-SNPs compared to traditional Medicare populations.

- [Institutional Special Needs Plans \(I-SNPs\)](#)

*Medicare Payment Advisory Commission (MedPAC)*  
Provides an overview of I-SNP performance, noting improved care management and alignment of incentives to better support medically complex residents.

- [Beyond the nurse practitioner: 3 I-SNP benefits driving better outcomes](#)

*Mcknights Senior Living*  
Highlights how the I-SNP model delivers benefits beyond on-site clinicians by improving care coordination, aligning incentives between payors and providers, and reducing avoidable hospitalizations for high-acuity skilled nursing residents.

- [I-SNP Enrollment and Outcomes in Long Term Care Settings](#)

*ATI Advisory*  
Finds that I-SNP enrollment is associated with reduced hospitalizations, fewer readmissions, and lower overall healthcare utilization compared to fee for service and non I-SNP Medicare Advantage populations.

- [Longevity Health and Innovaccer Announce Enterprise AI Center of Excellence After Achieving \\$1M Cost Savings](#)

*Innovaccer*  
Showcases how Longevity Health and Innovaccer launched an enterprise AI Center of Excellence following nearly \$1 million in cost savings, driven by reduced inpatient utilization and improved care coordination.

Longevity Health's model builds on these proven principles, combining clinical expertise with aligned incentives to deliver measurable improvements in outcomes for long-term care residents.

## Quality Recognition & Awards

Longevity Health has been recognized by leading industry organizations for excellence in quality, performance, and workplace culture.

### Clinical Quality & Performance

- **[Top Ratings in CMS Star Quality Measures](#)**  
*Centers for Medicare & Medicaid Services (CMS)*  
Longevity Health achieved top performance across key CMS Star quality measures, placing the organization among an elite group of Medicare Advantage plans. Of the 720 plans rated by CMS, only 2.5% earned an overall 5-star rating—underscoring Longevity’s clinical excellence and strong member outcomes.
- **[POA Quality Award Recognition](#)**  
*Pharmacy Quality Alliance (PQA)*  
Longevity was recognized by the Pharmacy Quality Alliance for high achievement in medication quality measures, reflecting its focus on safe, effective medication management for complex populations. This distinction places Longevity among the top 1.6% of Medicare Advantage and Part D plans nationwide.

### Industry Recognition

- **[U.S. News & World Report: Best Insurance Companies for Medicare Advantage \(2026\)](#)**  
*U.S. News & World Report*  
Recognized among leading Medicare Advantage plans, reflecting strong performance across member experience, access, and quality metrics.

### Workplace Excellence
